SKI & SNOWBOARD  
INSTRUCTOR INTERNSHIPS

An instructor internship is a fast-track course option, design to enable interns to enter into the snowsports industry quickly and secure a guaranteed job within their first winter season.

The internship is designed so that interns can train in their resort of choice, become qualified and then work as an instructor in a single season.

SKI & SNOWBOARD  
TRAINING COURSES

An instructor training course is a program aimed at ski development and improvement. It will revolutionise your skiing by challenging your technical ability, and teaching you to ride in all conditions.

At the same time, gain an internationally recognised qualification which will open doors into the industry if you decide to then pursue a career in the snowsports industry.
